

WHAT THE BEST COMPANIES DO

FINANCE LEADERSHIP ACADEMY

# Training that Supports Application

The Finance Leadership Academy enhances the performance of individuals and organizations by building the skills necessary to increase strategic business partnerships and develop the next-generation of leaders.

“My little workflow project turned into millions of expense reductions. What started as nothing blossomed into something so much larger...[Had I not attended the Academy], I wouldn't have completed this project to the extent that it is now.”

Finance Director  
Professional Services Firm

“This course has provided me with a new set of tools for my Finance toolbox to better enable me to solve the variety of business challenges that I'm facing.”

Assistant Corporate Controller  
Global Non-Profit Organization

“The activities were key with the learning. It really hit home and made concepts tie to real life.”

Business Analytics Manager  
Diversified Services Company

“I thought the lessons learned through the modeling project were very relevant to professional work experiences, i.e., keeping composure, active listening, etc.”

Finance Manager  
Medical Supplies Company

“The techniques demonstrated, case studies, group assignments, and lectures were very helpful and valuable, and will benefit our performance in our daily environment.”

Account Specialist  
Global Non-Profit Organization

“This course has made me take a deeper look on how I manage my team and how to improve my methods by using the tools that were taught to me.”

Controller  
Consumer Products Company

“The interaction amongst participants during the sessions has driven the relevance in my every day responsibilities and has facilitated the development of a strong network of Finance professionals across a multitude of industries that I can leverage for additional perspectives or past experiences.”

Senior Director  
Health Care Services Company
